Chinese Language Training

An Introduction to the Chinese Language Training Center for Foreigners

Authorized by the Shaanxi Provincial Education Department, the Chinese Language Training Center for Foreigners (CLTCF) of Xi'an University of Architecture and Technology (XAUAT) was established in March, 2008 to educate foreign students in Chinese. The CLTCF has educated foreigner students from Turkey, Kazakhstan, Kirghizstan, Turkmenistan, Uzbekistan, Japan, America, Germany, Russia and Ghana since its establishment. The CLTCF has 3 administrators, 8 full-time teachers, 7 guest lecturers, 3 of whom are associate professors and 5 lecturers. Five teachers have been appointed to teach Chinese in the U.S., U.K. and Nepal respectively, for one year, by the Hanban/Confucius Institute Headquarters.

Chinese language teaching at CLTCF focuses on foreign students' literacy, articulation and application. Apart from the core curriculums of Chinese grammar, listening, oral, reading and writing, there are optional courses related to Chinese history and culture, introducing Tai Chi, calligraphy, music and Kung Fu, which are appealing to foreign students. The CLTCF attaches great importance to the HSK examination and offers exam-intensive training. Besides this, students can participate in a wide variety of activities designed according to their cultural background and personal preferences, such as sports events, short excursions or field-trip study, in order to understand Chinese culture and utilize Chinese language better.

The CLTCF recruits foreign applicants every semester. You are warmly welcomed to study Chinese with CLTCF at XAUAT!

An Introduction to Xi'an University of Architecture and Technology (XAUAT)

Xi'an University of Architecture and Technology (XAUAT) is located in Xi'an, a famous historical and cultural city. With a profound history of school running, it has gathered a galaxy of talents versed in civil engineering, architecture and municipal administration subjects. So far, XAUAT has been the publically - acknowledged most influential civil engineering university in China with Engineering ranked the top 1% discipline in the world according to the ESI (Essential Science index).

As one of the "Most Time-Honored Eight Civil Engineering and Architecture Related Universities" in China, and the key university directly subordinate to the Ministry of Metallurgical Industry, XAUAT is jointly sponsored by Shaanxi provincial government, Ministry of Education of China as well as Ministry of Housing and Urban-Rural Development at present.

XAUAT offers both bachelor and master degree education to International students, as well as the non-degree education of Chinese language and Chinese culture. Confucius institute Scholarship, Shaanxi Scholarship and XAUAT Scholarship are available for international students. XAUAT attempts to bring up international all-around talents with professional skills and practical abilities.
